WIRELESS ACCESS

*Hialeah Public Libraries
provides free internet
access and printing from
your wireless devices*

Wireless Availability

- Free wireless, also known as Wi-Fi is available at the library.
- No password required.

Available Wireless Networks (SSID)

JFK: **JFK Pub** North: **NORTH ePub**
West: **WEST Pub** Walker: **WALKER Pub**
Curtiss: **LUA Pub** Wilde: **WILDE Pub**

Hardware and Software

- Your laptop will need a Web Browser, for example "Internet Explorer, Opera, Firefox, Safari, and Google Chrome" and a compliant wireless device installed.
- Other portable devices such as smartphones and tablets may also work.

TIPS:

- If you cannot connect check that your wireless network switch is on.
- To avoid possible theft, do not leave laptops or personal belongings unattended.
- Check the Windows 7 How-To Videos <http://windows.microsoft.com/en-US/windows7/help/videos>
- Be Safer Online—Netsmartz @ <http://www.netsmartz.org/Parents>

Configuring Your Device

- Sometimes, you may need to turn off the firewall from windows or the antivirus software in order to connect.
- You need to add the library's SSID to your device's settings.
- You are responsible for configuring and restoring the settings on your devices.

Windows 7

1. Open "Connect to a Network" by right-clicking the network icon in the notification area.
2. Select the corresponding library SSID, and then click "Connect".

Windows Vista

1. Click Start, then click "Connect To".
2. Select the corresponding library SSID, and then click "Connect".

Windows XP

1. Right-click the network connection icon in the notification area, and then click "View Available Wireless Networks".
2. In "Connect to Wireless Network", select the corresponding library SSID and then click "Connect".

Mac OS X

1. Click the AirPort menu and select the corresponding library SSID from the list of wireless networks.

iOS Devices (iPod, iPad, iPhone)

1. Select the "Settings" app.
2. Select Wi-Fi section and connect to the corresponding library SSID from the list of available wireless networks.

Android Devices (HTC, Samsung, Asus)

1. Select the "Settings" app.
2. Select "Wireless and network".
3. Select "Wi-Fi Settings".
4. Turn on Wi-Fi and connect to the library SSID.

Limitations and Disclaimers

- By accessing the Hialeah Public Library's wireless network you agree to the Internet Safety, Computer and Wireless Use Policy, and the Library's Code of Conduct Policy. View these policies online at www.hialeahfl.gov/dept/library.
- The Library assumes no responsibility for the safety of equipment or for laptop configurations, security, or data files resulting from connection to its network.
- The library cannot guarantee that your equipment or software will be compatible with the library's wireless network.
- The Library's wireless network is not secure. Information sent from or to your laptop can be captured within three hundred feet.
- Library staff is not able to provide technical assistance and no guarantee can be provided that you will be able to make a wireless connection.
- The Library's network is subject to content filtering.
- There is no time limit on wireless sessions.
- Network speed will vary by your location and by the number of users on the network.
- Do not move or block furnishings or obstruct walkways with cables, cords, devices, or peripheral equipment.
- Headsets are required to listen to audio content.
